

and as such do not require an environmental assessment. The exemption from the requirement to have an STA in place is eligible for categorical exclusion under 10 CFR 51.22(c)(25)(vi)(H), which provides that exemptions from surety, insurance, or indemnification requirements are categorically excluded if the exemption would not result in any significant hazards consideration; change or increase in the amount of any offsite effluents; increase in individual or cumulative public or occupational radiation exposure; construction impacts; or increase in the potential for or consequence from radiological accidents. The staff finds that the STA exemption involves surety, insurance and/or indemnity requirements and that granting Uranerz this temporary exemption from the requirement of establishing a STA would not result in any significant hazards or increases in offsite effluents, radiation exposure, construction impacts, or potential radiological accidents. Therefore, an environmental assessment is not required.

IV. Conclusions

Accordingly, the NRC has determined that, pursuant to 10 CFR 40.14(a), the temporary exemption is authorized by law, will not present an undue risk to the public health and safety, is consistent with the common defense and security, and is in the public interest. Therefore, the NRC hereby grants Uranerz a temporary exemption from the requirement in 10 CFR part 40, appendix A, Criterion 9, to set up an STA to receive funds in the event the NRC or the State regulatory agency exercises is right to collect the surety. This exemption will expire on December 31, 2016. At that time, Uranerz will be required to ensure that its financial assurance arrangement is in compliance with the NRC's STA requirements.

Dated at Rockville, Maryland, this 28th day of August 2014.

Andrew Persinko,

Deputy Director, Decommissioning and Uranium Recovery Licensing Directorate, Division of Waste Management and Environmental Protection, Office of Federal and State Materials and Environmental Management Programs.
